

DATA SHEET

Cool XQ 40

090-005632-00502

- Cooling unit for Tetrax XQ 230 puls
- Flow monitor featured as standard: Protects welding torches from overheating and damage caused by low coolant flow
- Temperature-monitored coolant – protects the welding torch from overheating through hot coolant water
- Accessible filling nozzle with easy-to-read filling level indicator (MIN/MAX scale)
- Optional water filter
- Temperature- and speed-controlled cooling fan – reduced contamination and less noise emissions as fan only runs when needed

Type	Cool XQ 40
Mains voltage	1 x 230 V
Cooling capacity at 1 l/min.	790 W
Max. cooling capacity	1100 W
Pump pressure	3.5 bar
Tank capacity	2.3 l
Protection classification (mounted state)	IP23
Safety marking	CE UK EAC
EMC class	A
Dimensions (L x B x H)	588 mm x 224 mm x 200 mm
	23.1 inch x 8.8 inch x 7.9 inch
Weight	10.4 kg / 22.9 lbs
Standards	IEC 60974-1, -2 and -10 CL.A
